Our Story

Back in 1998, I moved from NYC to San Jose to work at a big hi-tech company. Little did I know just how much I was going to miss my daily dose of za! Whenever anyone asked me what I missed most about New York, I would always say "A slice!" The more I said it, the more I knew one day I would open my own New York pizza joint. I hope this also brings a slice of home to other transplanted New Yorkers!

We are happy to share **A Slice of New York** with you here in San Jose. We bring to you only the highest quality ingredients, freshest produce, and most of all, the best cheese in the world.

With each bite you will see why New York pizza has the reputation it does.

Step in to the sights and sounds of New York... Enjoy!!
